Recover Bodies Of Two Mysteriously Drowned In River Thursday Night

Searchers Find William Kline
Near Scene of Tragedy and
Miss Hathaway Floating in
Race Flume.

The bodies of William Kline and Miss Lella Hathaway, who were drowned last Thursday evening were found early Friday morning. Kline's body was found about 4:30 o'clock in a cramped position near the place where it is supposed that the couple went down.

The body of Miss Hathaway was found at 5:15 o'clock by Joseph Spellman in the race flume at the plant of the Mishawaka Woolen Co. Miss Hathaway's body was floating on the surface of the water. Kline was found by Thomas Bauerlein and Edward Kuhn with a motor boat. The body of Kline was removed to the Thallemer morgue while Miss Hathaway was taken to the Finch and Sprague morgue.

Coroner Swantz of South Bend arrived in the city early Friday morning to hold an inquest. He said that so far all evidence pointed to accidental drowning. The theory of suicide advanced late Thursday night has been positively disproved, as no possible reasons could be advanced by the coroner. Kline held a responsible position with the government and had been employed on the structure of the new federal building of Mishawaka, having charge of the plumbing and the building of the smokestack. He had a large circle of friends in this city and enjoyed good health. Miss Hathaway was employed as bookkeeper at the J. Q. Swanger hardware store and was formerly local manager for the Mishawaka Loan Co. Mr. Swanger stated that Miss Hathaway appeared happy and as far as he knew on Thursday was in her usual mood. Further investigation by the coroner will be made and a verdict will probably be rendered Saturday.

Joked About Drowning.
When Kline, accompanied by Miss Hathaway applied for a boat at the Bauerlein livery, one of the attendants stated that he made the remark in a joking way that he wanted to know if Bauerlein had a good boat that could be used for drowning. About 10:30 as the pier they continued to jest with Bauerlein in regard to drowning and insurance. This was the last seen of the party until this morning so far as known. Miller Strikes Boat.
Herman Miller, who had charge of a party of young people up the river with a launch, while returning from McKnight's spring struck the boat used by Kline, partly submerged in the water. The boat was towed to the pier and Kline's coat and hat were found under a rear seat. The coat and hat were at once identified and after a search of the pockets a union card and other papers with his name attached were found which sufficed to identify the drowned person.

Efforts were made by volunteers and the police department for nearly two hours after the drowning, but owing to the extreme darkness they were given up to be continued at day break. The scene of the drowning was staked off and watchers were stationed until the rescuing party returned. Chief of Police Krieter was in charge of the searching party.

The cause of the drowning is a mystery and many are of the opinion that either one of the couple became ill and fell over-board or else the boat overturned when they attempted to change positions.

Lived With Parents.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like lead or Bladder bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus easing bladder disorders. Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

CITIZENS FAVOR A SANE CELEBRATION

Plan Suggested Whereby Leading Civic Clubs of City Will Combine for Quiet Observance of Holiday.

With the appearance of fireworks in the stores of the city the attention of citizens generally, particularly the various civic organizations, is drawn toward the necessity of a campaign for a sane Fourth of July for Mishawaka.

For the past several years Mishawaka has enjoyed comparatively "sane" Fourth's, a fact due principally to the timely warnings and the persistent campaigns entered into by the prominent men of the city.

It has been suggested that the Business Men's association and the Mishawaka Chamber of Commerce unite this year in an agitation for a quiet observance of the great national holiday. Several prominent citizens have recently expressed views decidedly in favor of the taking of active steps to curb the exuberance of youth on the Fourth. These citizens have suggested that the civic organizations of the city exert their influence toward the suggested plan and they state that if these forces could be brought to work there would be little doubt but what Mishawaka would again be assured of a Fourth of July celebration unclouded by accidents.

Several prominent women of the city have intimated that the Woman's club might be brought to exert some influence in the matter by taking a stand in favor of a sane Fourth and it is not unlikely that the club may take such a step. This club does not meet during the summer months but special meetings might be called to co-operate in the city-wide campaign for a sane Fourth in case such a campaign might be started.

There has been no talk this year of a general celebration on the Fourth of July but the prominent men of the city content themselves with the hope that something will be done to insure a peaceful and orderly celebration on the big day for the youth of America.
